About us

Da più di 50 anni, noi di **Metalfilo** lavoriamo al fianco dei protagonisti del settore Retail aiutandoli a trovare soluzioni per mercati sempre più competitivi. La nostra dedizione artigianale assieme alle nostre risorse umane e macchinari aggiornati ci rendono estremamente precisi, flessibili e reattivi per rispondere alle mutevoli richieste del settore retail.
I nostri obiettivi sono la ricerca di nuove soluzioni intelligenti e la realizzazione di prodotti innovativi di qualità.

*For more than 50 years, we at **Metalfilo** have worked alongside the protagonists of the Retail sector, helping them to find solutions for increasingly competitive markets. Our dedicated craftsmanship together with our human resources and updated machinery make us extremely precise, flexible and responsive to respond to the changing demands of the retail sector. Our objectives are the search for new intelligent solutions and the creation of innovative quality products.*

Cage

Cage è un sistema espositivo modulare pensato per offrire massima flessibilità e funzionalità. La sua struttura essenziale consente di organizzare e valorizzare i prodotti con un design lineare e raffinato. Grazie alla sua configurazione intelligente, si adatta facilmente a diverse esigenze espositive, garantendo ordine, estetica e praticità.

Cage *is a modular display system designed to offer maximum flexibility and functionality. Its essential structure allows you to organize and enhance the products with a linear and refined design. Thanks to its intelligent configuration, it easily adapts to different display needs, ensuring order, aesthetics and practicality.*

Cage

Progettato per rispondere alle esigenze del retail e degli spazi commerciali, **Cage** è un sistema espositivo solido, essenziale e altamente configurabile.

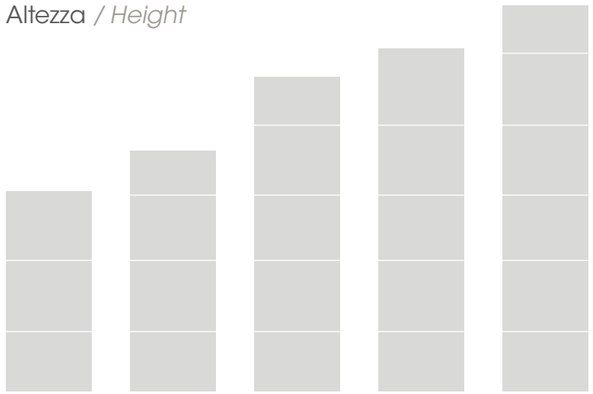

Designed to meet the needs of retail and commercial spaces, ***Cage*** *is a solid, essential and highly configurable display system.*

La luce integrata diventa linguaggio espositivo

Integrated light becomes an exhibition language

Il sistema espositivo **Cage** consente l'integrazione dell'illuminazione LED, offrendo una soluzione tecnica ed estetica che valorizza i prodotti esposti ed eleva l'esperienza visiva. La luce, perfettamente integrata, evidenzia forme e finiture senza alterare la pulizia del design, potenziandone la forza comunicativa. L'efficienza della tecnologia LED aggiunge una componente scenografica capace di rafforzare l'impatto visivo e trasformare ogni spazio in un ambiente coerente e coinvolgente.

*The **Cage** display system allows the integration of LED lighting, offering a technical and aesthetic solution that enhances the products on display and elevates the visual experience. The perfectly integrated light highlights shapes and finishes without altering the cleanliness of the design, enhancing its communicative power.*
The efficiency of LED technology adds a scenographic component capable of strengthening the visual impact and transforming every space into a coherent and engaging environment.

Hub

Hub è un sistema pensato per chi cerca una soluzione espositiva flessibile ed elegante. La sua architettura snella e ben calibrata offre una combinazione perfetta tra estetica e praticità. Le forme arrotondate donano morbidezza alla struttura, rendendola visivamente leggera e perfettamente integrabile in qualsiasi ambiente. Ogni elemento è concepito per ottimizzare lo spazio, valorizzando i prodotti con un design essenziale ma distintivo.

Hub *is a system designed for those looking for a flexible and elegant display solution. Its slim and well-calibrated architecture offers a perfect combination of aesthetics and practicality. The rounded shapes give softness to the structure, making it visually light and perfectly integrated into any environment. Each element is designed to optimize space, enhancing the products with an essential but distinctive design.*

Grazie alla sua configurazione modulare, permette di organizzare gli spazi con efficienza, offrendo un'esperienza espositiva chiara e ben bilanciata.

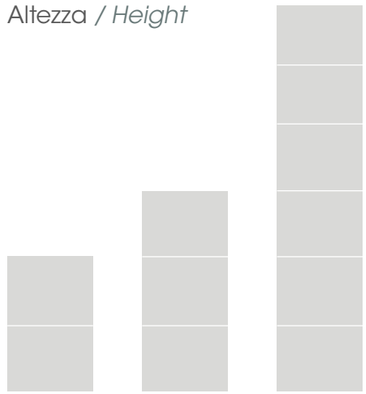

Thanks to its modular configuration, it allows you to organize spaces efficiently, offering a clear and well-balanced exhibition experience.

Flight

Flight è un sistema espositivo dinamico e raffinato, pensato per dare leggerezza e movimento agli spazi retail. Le sue superfici sospese creano un effetto visivo elegante e arioso, mentre la possibilità di integrare l'illuminazione a LED trasforma l'esposizione in un'esperienza scenografica. Ideale per chi vuole valorizzare i prodotti con una soluzione flessibile e contemporanea, capace di adattarsi con eleganza a qualsiasi contesto.

Flight *is a dynamic and refined display system, designed to give lightness and movement to retail spaces. Its suspended surfaces create an elegant and airy visual effect, while the possibility of integrating LED lighting transforms the exhibition into a scenographic experience. Ideal for those who want to enhance products with a flexible and contemporary solution, capable of elegantly adapting to any context.*

Con il suo design sospeso e modulare, **Flight** consente di organizzare l'esposizione in modo sofisticato ed efficace. Ogni elemento espositivo viene enfatizzato con precisione, creando un effetto visivo d'impatto.

*With its suspended and modular design, **Flight** allows you to organize the exhibition in a sophisticated and effective way. Each display element is precisely emphasized, creating an impactful visual effect.*

Luce integrata per enfatizzare il prodotto

Integrated light to emphasize the product

Nel sistema **Flight** la luce LED diventa parte integrante della struttura, enfatizzando l'effetto sospeso dei ripiani e accentuando la leggerezza che definisce il sistema espositivo. L'illuminazione si diffonde con discrezione, accompagnando la percezione dello spazio e guidando lo sguardo verso i prodotti esposti.
Il risultato è un'installazione eterea ed elegante dove tecnologia e design dialogano in equilibrio per offrire un'esperienza visiva fluida, luminosa e contemporanea.

*In the **Flight** system, LED light becomes an integral part of the structure, emphasizing the suspended effect of the shelves and accentuating the lightness that defines the display system. The lighting diffuses discreetly, accompanying the perception of space and guiding the gaze to the products on display.*
The result is an ethereal and elegant installation where technology and design dialogue in balance to offer a fluid, bright and contemporary visual experience.

Frame

Con un design essenziale e una costruzione studiata per ottimizzare lo spazio, **Frame** offre una soluzione espositiva versatile e moderna. La sua configurazione permette di esporre con ordine e precisione, garantendo un perfetto equilibrio tra leggerezza visiva e stabilità strutturale. Un sistema che trasforma l'ambiente in un palcoscenico per i prodotti, esaltandone la presenza con eleganza.

*With an essential design and a construction designed to optimize space, **Frame** offers a versatile and modern display solution. Its configuration allows you to display with order and precision, guaranteeing a perfect balance between visual lightness and structural stability. A system that transforms the environment into a stage for the products, enhancing their presence with elegance.*

La sua struttura geometrica, studiata per garantire equilibrio e solidità, permette di creare composizioni versatili e perfettamente integrate nello spazio.

Its geometric structure, designed to ensure balance and solidity, allows you to create versatile compositions that are perfectly integrated into the space.

Punch

Con **Punch**, ogni prodotto trova il suo spazio ideale. I suoi pannelli modulari permettono di integrare accessori come mensole, ganci e supporti in modo semplice e immediato. Un sistema progettato per chi desidera un'esposizione strutturata ma personalizzabile, capace di adattarsi a diverse tipologie di merce e valorizzarne la visibilità.

*With **Punch**, every product finds its ideal space. Its modular panels allow you to integrate accessories such as shelves, hooks and supports in a simple and immediate way. A system designed for those who want a structured but customizable display, capable of adapting to different types of goods and enhancing their visibility.*

Punch è un sistema espositivo che offre infinite possibilità di configurazione grazie alla sua struttura a pannelli forati. Perfetto per chi necessita di un allestimento flessibile e facilmente modificabile, consente di adattare gli spazi espositivi in base alle esigenze del momento.

Punch *is a display system that offers infinite configuration possibilities thanks to its perforated panel structure. Perfect for those who need a flexible and easily modifiable setup, it allows you to adapt the exhibition spaces based on the needs of the moment.*

Custom projects

01

Dall'idea al concept

Ogni progetto su misura nasce da un'esigenza specifica e prende forma attraverso un'attenta analisi delle necessità del cliente, degli spazi disponibili e dell'identità del brand. Grazie all'ascolto e alla raccolta di informazioni chiave, trasformiamo le idee in soluzioni espositive funzionali ed efficaci, coniugando estetica e praticità.

From idea to concept

Each tailor-made project arises from a specific need and takes shape through a careful analysis of the customer's needs, the available spaces and the brand's identity. Thanks to listening and collecting key information, we transform ideas into functional and effective display solutions, combining aesthetics and practicality.

02

Progettazione su misura

Dal concept alla realizzazione, sviluppiamo soluzioni personalizzate che uniscono design, funzionalità e fattibilità produttiva. Collaboriamo con il cliente per ottimizzare ogni dettaglio, selezionare i materiali più adatti e ingegnerizzare il sistema espositivo, garantendo estetica, robustezza e modularità. Grazie a software avanzati e alla nostra esperienza, creiamo manufatti perfettamente adatti alle esigenze espositive.

Tailor-made design

From concept to implementation, we develop customized solutions that combine design, functionality and production feasibility. We collaborate with the customer to optimize every detail, select the most suitable materials and engineer the display system, guaranteeing aesthetics, robustness and modularity. Thanks to advanced software and our experience, we create products perfectly suited to exhibition needs.

03

Dal progetto al prototipo

Prima della produzione, realizziamo prototipi e campioni per testare design e funzionalità, apportando eventuali miglioramenti. Grazie a un reparto dedicato, garantiamo prototipazione rapida, permettendo ai clienti di valutare concretamente gli espositori.

From project to prototype

Before production, we create prototypes and samples to test design and functionality, making possible improvements. Thanks to a dedicated department, we guarantee rapid prototyping, allowing customers to concretely evaluate the displays.

04

Produzione, qualità e affidabilità

Dopo l'approvazione del prototipo, il progetto passa alla produzione. Il nostro stabilimento flessibile permette la realizzazione anche di piccole serie di sistemi espositivi in metallo, garantendo alta qualità e conformità agli standard richiesti. Grazie a un'organizzazione efficiente e a un team specializzato, offriamo un servizio affidabile fino alla consegna.

Production, quality and reliability

After prototype approval, the project moves to production. Our flexible factory allows the creation of even small series of metal display systems, guaranteeing high quality and compliance with the required standards. Thanks to an efficient organization and a specialized team, we offer a reliable service until delivery.

Metalfilo S.r.l. si riserva il diritto di apportare le eventuali modifiche che riterrà opportuno, atte a migliorare la funzionalità o l'estetica dei prodotti, senza darne preavviso. I campioni dei colori e dei materiali sono indicativi.

Metalfilo S.r.l. *reserves the right to make any changes it deems appropriate, aimed at improving the functionality or aesthetics of the products, without prior notice. The samples of colors and materials are indicative.*
